REMARKS. - Owing to heavy receipts, stocks of Flour have largely accumulated, and the temporary activity noticed last week has given place to a dull market; no shipments are reported, and the only sales made are to retail dealers for Extra brands; Family and low grades, such as Fine and Supers, are neglected. Receipts of Wheat are very light, and, owing to the scarcity of money, the market is dull and almost neglected; there has been some shipment to neighboring ports, but the bulk of the receipts go to store; offerings to day of 1062 bushels. with sales of white at 150 and 152 for good to prime, and of red at 135, 149 and 146 for fair to good, and 158 and 160 for prime. Corn is in very limited receipt, and all the offerings sell readily to local millers; the market is active at a decline during the week of 2a3c; no shipm nts are reported, the receipts being barely sufficient to supply the local demand; offerings of 520 bush-els mixed, with sales at 66 for damaged, and 71 for good quality. Rye is quiet and unchanged. Oats are active at an advance bushels, with sales at 40, 44, 45, 47 and 48. Prime Butter is scarce and in good enquiry. Eggs are wanted. Potatoes are in better demand. a considerable falling off since last week, and the pens are nearly bare, any accumulations of previous week being disposed of-quotations just tow, as to quality, show no advance, but in view of the light numbers now in the yards, prices are oking up. Hogs-As with other classes of stock this week, Hogs have also fallen off in numbers, but up to this time the receipts have been about equal to the demand, and prices without material change, would be immediately followed by a decline in proces, as the demand is very limited. We quote at 6 50 487 25 per 100 lbs net for common to best, the latter being most ready of sale, while the others are very dull. Receipts this week 5466 head,

Only one session will be held, viz: In Association Hall at 2 p. m., and all delegates are requested to be in their places. On Sunday evening four public meetings will be held-one at the Academy of Music, which will be a farewell service, for which tickets will be furnished.

Immediately adjoining the Academy of Music, said Dr. Prime, is the far famed Tammany Hall. This hall and also Stemway Hall will be open the same evening for addresses by home and foreign delegates, and Cooper Institute will be open for a German address. These three meetings commence at 7 o'clock, to give all the del egates an opportunity of returning at 9 p. m., to the Academy to participate in the farewell exercises. Dr. Prime took occasion to thank the reporters for their assistance during the Cor-

erence. The duty of churches in relation to missions was the subject of a paper read by the Rev. Joseph Augus, D. D., of Regent's Park, London. He said preaching was not for the first age of the church only, but was to go on each generation. The sacred writing being supplemented by the preacher with fifty thousand preachers for ten years and one hundred and fifty millions sterling, the Gospel might be carried to every man, woman and child on earth. More than one denomination in America could supply all the missionaries in England alone spends as much money in intoxicating drinks in four years. Ten thousand professing christians might be named. England who could

give all the money.

A paper on Territorial divisions of missionary fields of labor in missionary countries, written by Rev. Rutus Auderson, D.D., of Boston, Mass., was read by Rev. Dr. Clark. It states that there are 56 missionary societies at work from all evangelical denominations in Christendom, which spend over five million dollars stering a year and have two thousand ordained missionaries and four times as many native

There is little to be apprehended from Papal apposition in barbarous nations, as the natives soon learn to look upon them as of a different religion. But the danger was from missionaries of one society taking up converts of another, imperfectly taught as to the minor points which divide christendom. On interference by missionaries of different denominations and the occupation of different fields, labor was resolved upon by the great council which closed this year at Allahabad, and at which twenty denominations were represented.

The Yellow Fever Scourge.

NEW YORK, Oct. 10.-Dispatches from Shreveport, Louisiana, says there is no change in the epidemic. New cases are reported in the city and outskirts, most of which are children. About 400 cases are now under treat-

Among the deaths reported is that of Cant. John W. Stuart. Col. D. B. Martin and Capt. Haymaker are doing well.

Some stores are open but no particular busi

ness is doing. The fever broke out in Mansfield, forty miles from here, and over fifty families have left the village. More new cases are reported on the other side of the river. The physicians advise the absentees not to return home until the danger is over.

L. G. Joiron, R. G. Wiltz and A. Maple, who came here from New Orleans as nurses. were arrested for robbing the body of a dead priest of his clothing, money, watch and crucifix. If the evidence is clear against them they will probably be hung by the citizens who are greatly enraged.

NEW YORK, Oct. 10.-A Memphis dispatch says no idea can be formed of the deplorable state of affairs there. People die faster than they can be buried. Hundreds have died unattended. Bodies have laid uncared for until partially decomposed, and at one burial place the stench arising from the coffins awaiting interment is horrible. Nine hundred persons have perished from the fever since its first appearance and it still rages. There is a lack of competent nurses. Some physicians have given up in despair at the frightful carnage and fled marched from the colored Odd Fellows' hall to the city, though the majority remain and are laboring day and night in the cause of humanity. Money is urgently asked for.

The Indians.

St. Louis, Oct. 10. - A letter dated Pueblo, Col., Oct. 5, says: On September 28th a party of some 300 Indians, consisting of Cheyennes, Arapahoes and Kiowas came into Arkansas Valley from the South and camped opposite Fort Lyon near Los Animos. The commanding officers at Fort Lyon had a task with the from St. George's Island. Most of the dealers chiefs, but could learn nothing of the intenavailed themselves of this opportunity to lay in | tions of the Indians. They claimed the country as their own, and said they proposed to roam over it as they pleased. They were all warriors, armed with breach loading government rifles, one or two good revolvers each. and bows, spears, &c., and each had an extra led horse. The commandant at Fort Lyon requested the Indians to return to their reservation, to which they replied they would go when they were ready, and talked very impudently. Two days afterwards they left and proceeding up the Arkansas river, through the settlements, divided into small parties along the various tributary streams and began an indiscriminate slaughter and stampeding of cattle, compelling the herders to look for them. This continued about a week, during which time several hundred heards of cattle were killed and excitement and consternation ware created among the settlers, a large number of whom flocked into Pueblo and other towns. At last accounts the Indians were going towards the settlements on the Los Animos river, below Trinidad, and the citizens were arming for defence. Several small companies have already gone out to defend the settlements. Two or three herders who attempted to defend their herds are reported to have been killed. The Indians came from a reservation near Fort Sill. tary aid has been asked for, but none had been received up to the date of this letter.
